RICO CASAZZA

A self-forged voice from the European underground — where raw dancefloor pulse collides with cinematic soul.

Rico is a DJ and electronic music producer based in Europe. He relocated to London from Milan at the age of 19, and across nearly two decades has navigated the underground with a strong voice of his own — shaping a style that fuses Minimal, Electro / IDM cinematic in texture, rave in spirit and rooted in soul.

His music has cultivated a devoted following captivated by his distinctive soundscape. With an extensive discography of EPs, albums, remixes and scores for film, Rico has firmly established his reputation as a seasoned producer.
